Ten Things You Need To Know About Virginia Medicaid Managed Care Program

Measurably Better Care, Quality and Value

MEDICAID MANAGED CARE

1. The program began in 1996; has mandatory enrollment, and is statewide with 2-5 plans in each locality.
2. It's now called Medallion 3.0 - formally Medallion II.
3. Members include 728,000 children, aged, blind, disabled, care taker parents, pregnant women, and acute care for waiver recipients.
4. Covers all Medicaid services (acute, specialty, chronic, pharmacy, and transportation) except community mental health and dental.
5. Partners with 6 national and regional health plans – Anthem, Coventry, INTotal (Inova), Kaiser Permanente, Optima (Sentara), and Virginia Premier (VCU).
6. Plans are NCQA accredited. We use each MCO's annual HEDIS data and scores to evaluate the plans and improve health outcomes. The annual report is on the DMAS website.
7. There is an annual contracting and actuarially based rate development cycle.
8. Plans provide budgetary predictability and more administrative benefits than in FFS such as: call center, 24/7 access, enhanced provider networks, staff, care management and specialized programs and technology.
9. Plans provide vital encounter data (used for RX rebate, reporting) to ensure accountability and compliance.
10. New projects include partnership initiatives, quality incentives, foster care, expedited enrollment and health and acute care.
